[Giganews](#) is one of the biggest, oldest and most important Usenet Provider these days. They started on 1994 with a single server, and have grown up to what they are today. They use multi homed Gigabit connections to several Internet backbones which optimizes upstream speeds.

They currently provide 5 easy to understand plans:

Plans	Price	Bandwidth	Encryption	Max Conn	Binary Retention
Mimo					
Usenet Browser					
Dump Truck					

Golden frog Usenet Search

*Diamond	\$29.99	Unlimited	256-bit SSL
Yes	30GB	Yes	
Platinum	\$19.99	Unlimited	256-bit SSL
Yes	5GB	Yes	
Silver	\$14.99	50GB	256-bit SSL
Bronze	\$9.99	10GB	256-bit SSL
Pearl	\$4.99	5GB	256-bit SSL

*Diamond plan now offers first 3 months at \$14.99

The most important Giganews features are:

- [14-day trial offer](#) , which allows you to test-drive their service, and even better, they give you 10GB of transfer with that 14-day trial.
- **2990+** Days of retention in text newsgroups.
- **1100+** Days retention in binary newsgroups.
- Headers are free, they don't count toward your allowable download quota.
- 99% completion rate
- **VyprVPN** is a personal VPN Service to secure your Internet Connection.
- **Dump Truck** is personal online storage you can use to store documents, photos, videos, and more.
